

JOB DESCRIPTION: INTERMEDIATE STRUCTURAL ENGINEER

JOB DETAILS:

REFERENCE	#JD1925
LOCATION	Auckland
EXPERTISE	Structural Engineer
WORK TYPE	Permanent

JOB DESCRIPTION

- Opportunity to have a key role in a variety of structural projects
- Great team environment
- Dynamic, fast-growing company with enviable clients

We are looking for a driven individual with initiative to use specialist structural design and translate this across a range of unique projects. If this is you, contact us!

ABOUT THE ROLE

This role involves the investigation, design and project management for the upgrade, replacement and new development of assets in public spaces across Auckland and the rest of New Zealand. If you are an engineer who enjoy the parks and outdoors and the complexities of the design and construction in these locations, then this is the job for you. You will be working under our Structural Engineering Team Leader, helping with existing projects such as new structures in the Waitakere Ranges, local park commuter connections, asset inspection and renewals. The primary objective of the Intermediate Structural Engineer is to provide outstanding service to clients while ensuring the successful delivery of our high-profile projects.

KEY OUTPUTS

- Assisting our project design team with delivery of outdoors and recreation projects – from site assessment and design through to construction observation.
- Proposal preparation, workload management and job delivery.
- Demonstrate initiative and provide practical advice to identify solutions to job-specific challenges.
- A team player keen to advance his/her skills and truly be an asset to the Stellar Projects brand.

WORK EXPERIENCE

- Experience in a consulting engineering firm, involved in structural and geotechnical engineering, preferably with some construction industry experience
- Expert in steel and concrete design as well as other general civil works is essential.
- Wanting to develop expertise in outdoors and recreation projects.
- CAD experience would be appreciated.
- Demonstrated ability to produce results whilst working alongside high-profile clients.

EDUCATION

- Bachelor's degree or higher in a relevant discipline (Civil or Structural Engineering) to Washington Accord.
- Recognised qualifications such as Site Safe would be an advantage.

KEY SKILLS

- Ability to quickly and effectively establish a trusted relationship with colleagues.
- Strong written and verbal communication skills, with the ability to express complex ideas in a simply understood manner.
- Strong attention to detail, able to focus on critical elements and, at the same time, remain mindful of the big picture.
- A highly motivated and autonomous individual who values being part of a talented team with diverse skills and experience.
- Passion for the outdoors and achieving sustainable outcomes.

WHY STELLAR PROJECTS?

Our company boasts a strong and dedicated team, delivering a wide variety of projects to an enviable range of clients. We understand the importance of providing a great experience for our stakeholders - both internal and external.

We have grown to over 70 staff in a short space of time (the company was founded in 2013). Our success is largely due to the high calibre of personnel we attract and retain, with specialists in a wide range of services: advisory, planning and consents, project management, design, construction, quantity surveying and asset management.

We continue to expand and deepen our service offering to clients and are committed to providing a great working environment for staff. If being part of a dynamic and innovative team, with opportunities to showcase your ability, motivates you, then we believe we can offer you great career progression. An attractive benefits package is offered.

IF YOU ARE INTERESTED:
