

Job Description: Senior Civil Designer

- Opportunity to have a stake in community-based projects.
- Great team environment.
- Dynamic, fast-growing company with enviable projects.

We are looking for an experienced professional engineer to contribute to the design of facilities, parks, recreation facilities and subdivisions around the greater Northland Region. If this is you, contact us!

About the Role

Reporting to the Northland Civil Team Leader, you will be responsible for excellence in the execution of our project design initiatives. The primary objective of the Senior Civil Designer is to lead and assist the team in the successful delivery of our high-profile projects. The role is based in Stellar Projects' Whangārei office.

Key Outputs

- Support our project design team with the design and delivery of major land development and infrastructure projects.
- Project support for deliverables such as proposal preparation, job tasks, work planning and financial management requirements.
- Work with the team to provide practical designs to complement our reputation for providing agile and forward-thinking solutions.
- A strong team player with the ability to work with diverse teams and skills who will truly be an asset to the Stellar Projects brand.
- Ability to lead design work in the civil and infrastructure design areas.
- Perform design tasks as required.

Work Experience

- Minimum 8-10 years' experience in the engineering industry.
- New Zealand experience in the design of earthworks, storm water, wastewater, water supply and roadway design.
- Demonstrated ability to use AutoCad Civil 3D software and work collaboratively with a team of talented designers.
- Extensive experience in design with AutoCAD Civil 3D for civil design and land development projects.

Education

- Bachelor's degree or higher in a relevant discipline (Civil Engineering or similar).
- Recognised qualifications such as Chartered Engineer or ability to obtain certification with 12 months would be an advantage.

Key Skills

- Thorough understanding of technical design requirements for NZ regional projects.
- Ability to quickly and effectively establish working relationships with our design team.
- Strong written and verbal communication skills, with the ability to express complex ideas in a simply understood manner.
- Ability to design key civil infrastructure, from evaluation and concept through to construction documentation. Strong attention to detail, able to focus on critical elements, while remaining mindful of the big picture.
- A highly motivated and autonomous individual who values being part of a talented team with diverse skills and experience.

Why Stellar Projects?

Our company boasts a strong and dedicated team, delivering a wide variety of projects to an enviable range of clients. We understand the importance of providing a great experience for our stakeholders - both internal and external.

We have grown to over 80 staff in a short space of time (the company was founded in 2013). Our success is largely due to the high calibre of personnel we attract and retain, with specialists in a wide range of services: advisory, planning and consents, project management, design, development management, landscape architecture, construction, quantity surveying, property advice and asset management.

We continue to expand and deepen our service offering to clients and are committed to providing a great working environment for staff. If being part of a dynamic and innovative team, with opportunities to showcase your ability, motivates you, then we believe we can offer you great career progression. An attractive benefits package is offered.

Please submit your CV and cover letter (outlining the reason for your interest in this position and indicating the match of your skills and experience to our job requirements) to Alison Clarke (alison.c@stellarprojects.co.nz, 027 700 9443).
