

JOB DESCRIPTION: SENIOR STRUCTURAL ENGINEER / PROJECT MANAGER

JOB DETAILS:

REFERENCE #JD1947

LOCATION Auckland

EXPERTISE Structural Engineer

WORK TYPE Permanent

JOB DESCRIPTION

- Opportunity to have a key role in a wide variety of structural projects
- Great team environment
- Dynamic, fast-growing company with enviable clients

We are looking for an experienced, driven individual with initiative to use specialist structural design and project management skillsets and translate this across a range of unique projects. If this is you, contact us!

ABOUT THE ROLE

This role involves the investigation, design and project management for the upgrade, replacement and new development of assets in public spaces across Auckland and the rest of New Zealand. If you are an engineer with project management experience who enjoys the parks and outdoors and the complexities of design and construction in these locations, then this is the job for you. You will be working under our Structural Engineering Team Leader, helping with existing projects such as new structures in the Waitakere Ranges, local park commuter connections, asset inspection and renewals. The primary objective of the Senior Structural Engineer is to provide outstanding service to clients while leading the successful delivery of our high-profile projects.

KEY OUTPUTS

- Leading delivery of outdoors and recreation projects – from site assessment and design through to construction project management.
- Perform structural design tasks as required and support junior staff providing mentorship and guidance.
- Provide Engineer to Contract project management assistance to projects.
- Build strong client relationships by providing excellent service and timely delivery.
- Proposal preparation, workload management and job delivery.
- Demonstrate initiative and provide practical advice to identify solutions to job-specific challenges.
- A team player keen to advance your skills and truly be an asset to the Stellar Projects brand.

WORK EXPERIENCE

- Experience in a consulting engineering firm, involved in structural engineering.
- Project management and NZS3910 Engineer to Contract knowledge and experience.
- Demonstrated ability to produce results whilst working alongside high-profile clients.
- Desire to develop expertise in outdoors and recreation projects.

EDUCATION

- Bachelor's degree or higher in a relevant discipline (Civil or Structural Engineering) to Washington Accord.
- Engineering New Zealand Chartered Engineer desirable or ability to obtain.
- Recognised qualifications such as Site Safe would be an advantage.

KEY SKILLS

- Ability to quickly and effectively establish a trusted relationship with colleagues.
- Ability to lead a design team.
- Strong written and verbal communication skills, with the ability to express complex ideas in a simply understood manner.
- Strong attention to detail, able to focus on critical elements and, at the same time, remain mindful of the big picture.
- A highly motivated and autonomous individual who values being part of a talented team with diverse skills and experience.
- Passion for the outdoors and achieving sustainable outcomes.

WHY STELLAR PROJECTS?

Our company boasts a strong and dedicated team, delivering a wide variety of projects to an enviable range of clients. We understand the importance of providing a great experience for our stakeholders - both internal and external.

We have grown to over 80 staff in a short space of time (the company was founded in 2013). Our success is largely due to the high calibre of personnel we attract and retain, with specialists in a wide range of services: advisory, planning and consents, project management, design, construction, quantity surveying and asset management.

We continue to expand and deepen our service offering to clients and are committed to providing a great working environment for staff. If being part of a dynamic and innovative team, with opportunities to showcase your ability, motivates you, then we believe we can offer you great career progression. An attractive benefits package is offered.
